19 Plaintiff received notice electronically that an order  
20 had been issued setting a case management conference for  
21 this case on January 17, 2007, and Plaintiff s counsel  
22 scheduled the conference accordingly.

23 Apparently the electronic notice was incorrect and the  
24 case management conference had actually been set for three  
25 days earlier on January 14. Plaintiff s counsel will be out  
26 of town on January 14 and hereby requests that the  
27 conference either be continued to a later date or that

counsel be allowed to appear telephonically. Opposing  
counsel has been contacted and is amenable to either  
alternative.

A joint cmc statement has already been filed in  
this case and both Parties have requested that the Court  
issue a Case Management Order consistent with the dates  
proposed therein. If the Court is willing to adopt such an  
Order from the statement, the parties request that  
Court do so and vacate the case management conference.

Dated: January 8, 2008.
